

*I/V w Gabriela Cassineau, Det. S. Surak #5742,

This interview took place at the dining hall at the Angel Valley Retreat.

On 10/08/09 I spoke with Gabriela Cassineau who stated that she did participate in the "vision quest". She stated that she did not remember whether she stayed in the whole time. She stated that when it started she was in there and she stated before she knew anything had happened she was being told they were done, but does not remember anything in between. She stated that she had just heard about the people being ill, did not see it first hand.

End of interview
