

*I/V MedicineTree, James 11-07-09 C34 Parkison:

On Saturday November 7, 2009 I spoke to James MedicineTree. The interview was not recorded.

I had been told by Shawna Bowens that she had talked to him after the sweat lodge incident. She said he had told her that the elders had warned James Ray about his lodges and that someone could get hurt.

According to James MedicineTree, he did say he had heard that but he could not remember who told him that or who the elders might have been. He has run sweat lodges himself but has never been involved with a James Ray event and prior to this incident he did not know who James Ray was.
